

EASY-capture™

Ultimate technologies for automated solutions

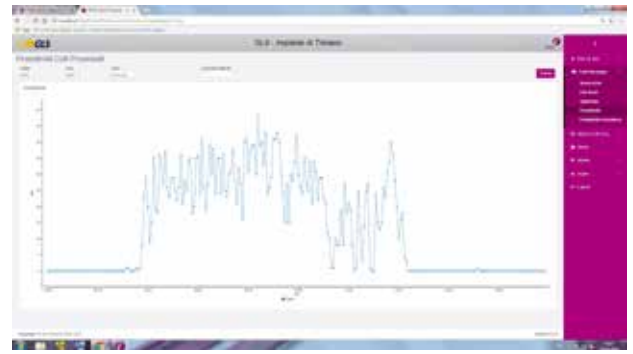

- Fully automated integrated data capture system
- Legal For Trade certified for data invoicing
- Innovative facility data management software with remote access capabilities
- All-in-one solution for agencies and depots

EASY-capture™ is suitable for express-courier and postal sorting centers

The EASY-capture™ is an “all-in-one” solution based on a belt conveyor equipped with an integrated data capture system. The totally automated system measures weight and dimensions, reads barcodes and captures images of conveyed items. It combines an innovative data management software with remote access capabilities to provide productivity information and on-site aggregate statistics in real-time.

The EASY-capture™ and accompanying software is fully certified Legal For Trade (LFT), an essential condition for data invoicing in sortation facilities. The EASY-capture™ also provides accurate item data detection for increased performance and overall improvement of operative efficiency.

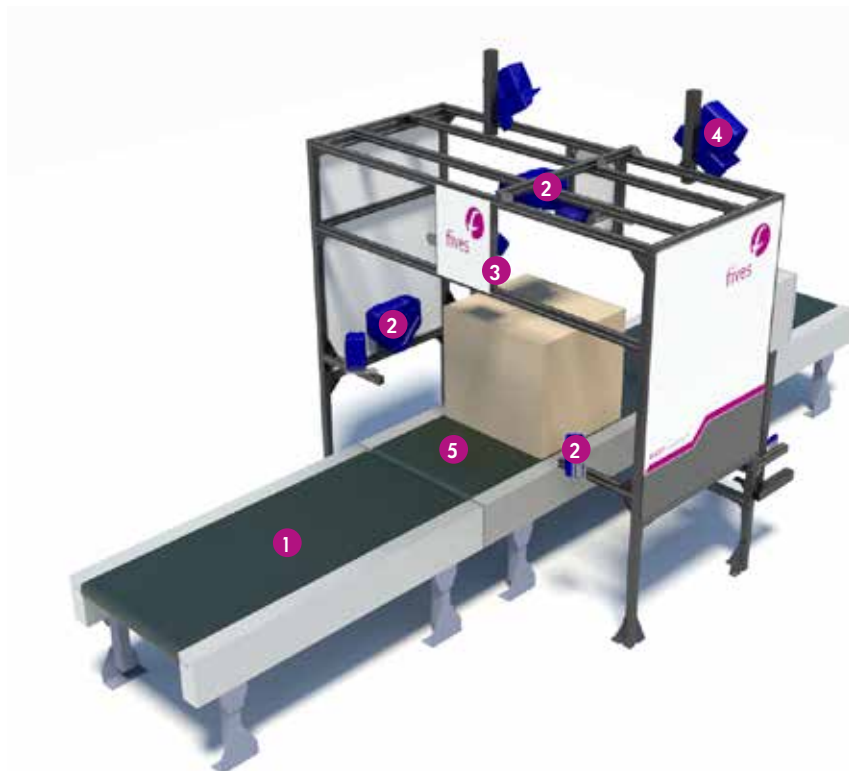

The EASY-capture™ easily integrates with other equipment such as diverters and sorters. It is a complete solution for sorting systems from low to medium performance typical of postal and express courier agencies and depots.

Technical features*

EASY-capture™ size (LxWxH):	5.7 x 2.5 x 2.7 m
Configuration:	Uni- or Bidirectional
Speed:	1.0 - 2.2 m/s
Throughput:	2,000 - 4,000 items / hour
Barcode reading:	From 1 to 6 sides
Item size (LxWxH - LFT Weight):	
- Min.	150 x 150 x 15 mm - 0.25 kg
- Max.	1,400 x 800 x 800 mm - 50 kg
